

2D projective 2x2 tower block Fiber/mesh assembly

To do:

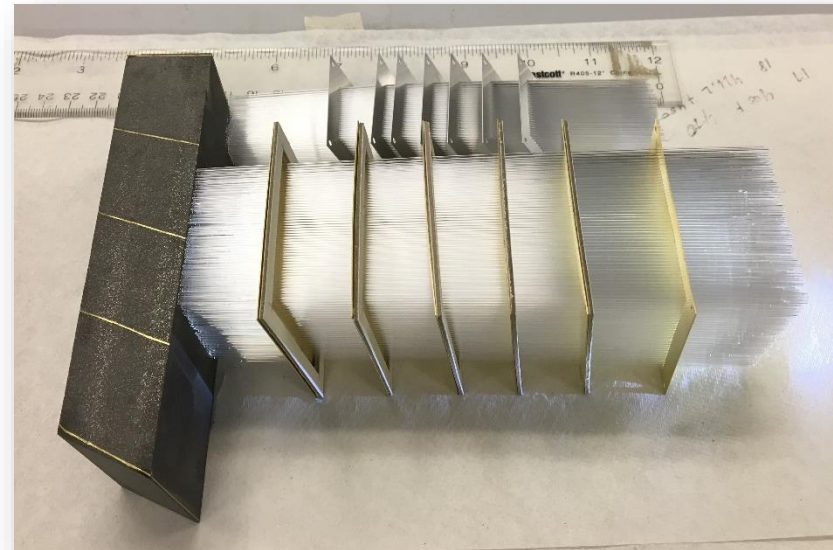

- Design/fabricate hopper/funnel to facilitate fiber loading
- Decide on tower dimensions
- Design molds and fixtures
- Fabricate projective blocks for next prototype.
 - How many different block shapes?
 - 1x1, 1x2, 2x2?

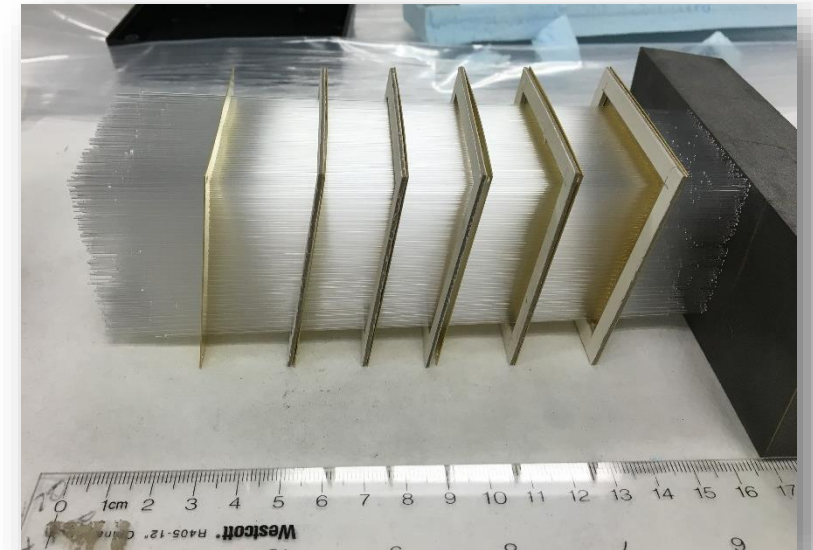

0.050" shim and mesh in stacking block

Fully loaded stack of meshes

1x1 tower (top) and 2x2 tower fiber/mesh assemblies

Fiber/mesh assembly
